UPDATE
BRONZE COMMAND

C&IP (Insp. Steve Burke)	Steve Burke	Update from E Div: convoy that left Prince George yesterday was located in Chilliwack overnight, moving to Surrey this morning; preparing to deal with that. Planning team tied up on CIC planning; no updates.
--------------------------	-------------	--

Protective / NCRCC (Supt. Jim Efford)	Jim Efford	Request for security package is progressing; have the right people engaged now. Meeting today with Protective leads to strategize the next level; will be informed of plans for the next few days/weeks to resize our HR needs, and will be tracking in terms of posture. Andy White and Mitch Monette: not clear what the tracking mechanism will be for use of RMs during the Emergency Measures Act, for reporting in the future; need clarity on who is doing what so that the tracking is done correctly, with no duplication. Note that during COVID-19, there was one email address for all communications; will need to set up a central repository under GSB and have people assigned to manage the tracking of resources, as well as the tracking of FAQs for immediate needs and also for future inquiries/reviews. Response: meeting will be arranged with GSB (NHQ, FPSM, Silver) to discuss resource tracking and centralized Q&A; update to be provided at 17:00 today. All should use the ROCC email address for requests etc, until a formal system has been determined; Mario Panizzon will have Matthew Vaneiri create mailboxes as needed.
---------------------------------------	------------	---

National Div (Supt. Mitch Monette)	Mitch Monette	Josée Couvrette: note that Finance is hardcoding RMs being deployed to National Div against the National Div records.
C Div (Supt. Martin Roach)	Karine Gagne	Protests are anticipated in Quebec City this weekend; no request for assistance as yet.
O Div (Supt. Andy White)	Andy White	Working to replenish our members currently deployed in Ottawa; final day shift in Windsor is today. PM visit to Windsor has been cancelled, which frees up resources and leaves us in a good position.

FP Investigations (C/Supt. Sue Efford)	Sue Efford	Ministers' comments in the media yesterday, working with Comms re: extremist comments - have several requests in so far, working on response. Request for briefing from the analysts in GSB command on portions of IMVE; will hold that briefing this morning and will include Mark Flynn.
FP Investigations Financial Crime (Supt. Denis Beaudoin)		Some assets have begun to be seized; seeing some activity on Facebook as affected individuals note that their accounts have been frozen - hoping this will begin to have an impact.

Just

National Intelligence (FPNI) - Lisa Ducharme	Open Source / TIOS (Insp. Wallace Kennedy	Currently working on two pieces: first, a broader threat assessment; we have lots of eyes on the top level of intel, sent home, but the sympathy to this movement won't have stopped, so will be working on what to expect next. Second, looking at how we can provide strategic intel to support ops, notably looking at Diagonal movement - for instance, if something happens in K Div, what is the likelihood of it happening here? Will provide a Secret level version and a Protected A level version for broader distribution. Note: will be reaching out to TIOS re: leveraging assets to help with this work. Four taxonomies up on the go right now: international copycats; donations; blockade; movement of weapons. Will be having a discussion with Dave Janzen re: issue we're hoping to work on together.	Liam Price	No new asks were received overnight from international partners; have received good products from NZ and Australia re: copycat linkages. Note: daily marker on Ukraine, please do not believe the media about movements of troops away from the border, this could be coming and if it is we should expect cyber attacks and similar to spike domestically, which may impact responsiveness across the board.	FP Strategic Policy (Shannon Heigel)	N/A	POC GOC Liaison (Insp. Dave Evans)	Dave Evans
		Happy to talk with FPNI re: upcoming assessments.		Last night, Parliamentary Protective Services made federal assistance request to the CAF for hard rations. Request is currently with the Minister, and if approved, will be published in key points document released twice daily. Once this is published, CAF will officially be in the conversation, if that has not already happened.

	Last night, Parliamentary Protective Services made federal assistance request to the CAF for hard rations. Request is currently with the Minister, and if approved, will be published in key points document released twice daily.	Once this is published, CAF will officially be in the conversation, if that has not already happened.

POC GOC Liaison (Insp. Dave Evans)	Last night, Parliamentary Protective Services made federal assistance request to the CAF for hard rations. Request is currently with the Minister, and if approved, will be published in key points document released twice daily. Once this is published, CAF will officially be in the conversation, if that has not already happened.	Dave Evans
------------------------------------	--	------------

PPS (Larry Brookson): The PPS crisis management centre has been embedded in the hot zone since late January, and we have exhausted all means of getting food into the centre; this is why the request has been made for rations.	
ROCC Operations (Supt. David Elms)	N/A

NOC Operations (Sgt. Mike Toohey)	Mike Toohey	Need to make plans re: access to the ROCC and NOC should there be additional protest in the vicinity. If access becomes limited, we need to make sure that essential staff can get in and out; please pass on at the planning stage what the limitations will be, as there are people working from Gatineau and various other locations. If shift change issues occur or issues around access to Vanier, will need to mitigate that risk. For those who need to get in on shift change, will update as much as possible knowing that this may be a quick decision to be made, and there is an operational piece to this; please direct questions to the ROCC inbox. Things are going well re: NOC providing intel to the JIG and the logistical support to the NOC. Any issues are being addressed in real time.
	Sandy Harvey	Issue arose around information being funnelled through the NOC; seems it was two employees who did not understand the SOPs, and will ensure that this doesn't happen again. Lots of activity is being planned for the weekend, coast to coast; some protestors are trying to make their way to Ottawa, including a "supply convoy" currently in Sault Ste Marie and tonight in Thunder Bay, expected in Ottawa on the 18th, stopping at every Costco along the way. Will provide an updated report in the morning.

Joint Intel Group (Sandy Harvey)	Sandy Harvey	Currently working with 8 Divs to get POJ units to Ottawa; 2 have confirmed, 2 have own pressures and as such are unable to send anyone. Working on a plan with Lesley Ahara to provide information on the schedule for those arriving in Ottawa as early as this evening. Alberta colleagues are still recovering from the Coutts situation; willing to come to Ottawa as early as Saturday or Monday, but need to work through scenarios and how this fits with operations, and work up a schedule.
	Marc Lacasse	Will be discussing indemnification with municipal police partners this morning; willing to risk manage the financial side, but the liability piece is raising concerns. Without a letter of indemnification, they do not want to participate. VPD have been advised to go ahead and travel to Ottawa, will have an answer ready when they arrive, but will need further effort to smooth out for others. comes into ON is still a peace officer.

National Mobilization (Marc Lacasse)		Currently working with Melissa Rusk on writing out the letter; have risk managed writing the letter at National Mobilization, but are not lawyers and will need assistance. Josee Couvrette: discussions held last night with the CFO and lawyers. Focus today will be VPD, preparing a quick MOA; reviewing the existing MOA with OPS; and preparing boilerplate MOAs for other municipal police services who will be coming in to assist. Looking to have those documents ready today.
--------------------------------------	--	--

Handwritten signature and initials in blue ink.

		Working through the processes today, and hopefully this afternoon will be in a position to provide an accurate number for those coming into Ottawa.
Tech Ops (C/Supt. Peter Ryan)	Peter Ryan	Last night, detected 4 drones in the area, including one in the Market behind the Parliamentary Library, which was countersurveillance.
		Specialized Engineering Section in Courts assisted with entering vehicles; looking at what help we may need in Ottawa in the coming days, and may need more information on how that will be set up.
Air Services (Mark Penney)	Mark Penney	Extra air assets are coming in to support Protective in next couple of days. Additional assets being brought back to base from Courts and will be available to assist, at least from the pilot perspective.
		ROCC is compiling names to share with CIO for the mobile device encryption pilot; will start with preliminary assessments of who can move forward based on the type of phone they have. Please continue to forward on the names.
CIO (Leo Bisson)	Leo Bisson	Have seen some increased cyber attack activity, with over 200 attempts to get into our Microsoft Cloud (usually around 15-20). Continuing to monitor.
CSO (Paul Brown)	Paul Brown	Continuing to work with NHQ on the e-binder.
		Re: BOLD issued this morning, would like everyone to pay particular attention when these are released and ensure the information is distributed quickly and as needed, especially something like today's with an armed individual in play.
		Expecting that what is happening overseas may have a great impact on us here re: cyber attacks, which could impact infrastructure and other concerns - have seen a lot of malicious activity and attempts on systems over the last week, and may see more cyber attacks in the coming days.
		Michel Arcand: Note that FPCO Cybercrime is working closely with international and partners on Ukraine and related cyber attacks issues.
		Shared the bulletin sent out on Friday re: adding individuals to CPIC; currently adding some points on flagging locations so that we are able to track and report on protestors. Will also put something together re: appropriate surveillance 2 and 3, and how this will be used; if there are armed individuals, they should be added to CPIC with a connection to surveillance 2 and 3. Would recommend caution around sensitivities using the terms surveillance 2 and 3, however.
FS&IS O CPIC (C/Supt. Doug Ross)	Doug Ross	Reminder: translation services standing by if needed.
NHQ Office (Supt. Lesley Ahara)	Lesley Ahara	PSU under the leadership of Jas Breton is looking after equipment coming into NHQ.
		Have engaged some psychologists at NHQ in case members need debriefing, to support both command structures.
		IM/IT support is engaged here at NHQ as well, please reach into Lesley Ahara if needed.
		Mobilization is ongoing, please do not hesitate to reach out if you have additional asks.

NHQ Office (Mario Panizzon)	Mario Panizzon	Currently drafting a message from NHQ to ensure that everyone knows it is a security breach to take pictures on RCMP sites. nobody takes pictures, it's a security breach. Also asking that managers check the list to make sure we know exactly who is needing to be in the office, and restricting it to that. Lesley will be lead for NHQ, working on e-binder for conduct, will have a draft before 1700 today. Sensitivities around seizing red serge, so need to be careful around that. Trying to make sure we cover all the policy basics and help people make the right decisions. Would also ask that managers check the list of employees on site and ensure we know exactly who needs to be in the office, and restrict numbers to those individuals.	Continuing to work on the e-binder for conduct, will have a draft before 1700 today. Note that there are sensitivities around seizing red serge, so we will need to be careful around that; trying to make sure that all the policy basics are covered off to help people make the right decisions.	N/A
		POC GOC Liaison (Insp. Dave Evans)		N/A
		DEOC - NHQ Mobilization (Karine Lemouillec)		N/A
		NHQ Translation Services (Stephanie Rainville)		N/A
		NHQ - Corporate Security (NCR Pers/Phys/Prop Security) (Jas E N/A)		N/A
		Update on procurement, have TSGs support covered off now, including buses and other transport being pretty well secured.		N/A
		Chief Financial Office (CFO) (Christine Le Lisa Coderre)		N/A
		CHRO (Lauren Dowdall)		N/A
		OHS (Sylvie Chateauvert)		N/A
		Labour Relations (John Park)		N/A
National Communications (Zeina Harb)	Zeina Harb	Interim OPS Chief Bell issued a second statement late yesterday, giving a high level overview on plan of action already begun.		
		Meeting with PCO: Incident Response Group (IRG) to meet daily; Ministers to give briefings every day at 1pm on updates, which means Comms is expecting a big uptick in requests. Thanks to all for help so far.		
		Lots of media discussion happening on GIVESCENDGO; some donors were revealed to be public servants and have used work computers to make donations. Expecting guidance from TBS on ethics.		
		Lots of media coverage on police presence downtown now.		
Gov't Coordination (Janna Rinaldi)	Erin Krysanowski	Wrapped up MINO brief this morning at 9am re: intentions for Minister travel in coming days/weeks, will have update this afternoon.		
		House of Commons: Emergency Measures Act was tabled late yesterday.		
		Tech briefings on the Act will continue today; A/Commr Daley will handle the briefings on the RCMP's behalf.		
		New motion going to SECU calling for Ministers and Officials from PS, CBSA, RCMP, OPP, and OPS to appear on Feb 23 and 24; these are defined dates now, waiting to see how that debate goes.		

ATIP (David Janzen)	David Janzen	IRG this afternoon; waiting to hear about expectations for RCMP contribution to talking points for Minister. No updates.
Commissioner's Office (Terry-Lynn McD)	Terry-Lynn McD	Re: IRG, expect Commissioner to be invited to attend; also, small group of Ministers meeting at 1pm on Convey - Two groups of Ministers are being briefed daily.
CAF Support Liaison (Supt. Dave Elms)	Mike Galloway	Update on request for rations: they are ready for delivery, although not yet approved (approval is in the works). Further planning assistance has been offered, standing by for further developments. Liam Price: note that if CAF is brought into the assistance equation, should expect more questions from international partners, even though the request is currently just for rations. Could significantly concern international partners, if perceived wrongly. Tied up with CIC working on the plan; no operational updates.
Integrated Planning Unit	Mitch Monette	Discovered someone from NHQ taking pictures on site this morning; will need NHQ (Mario Panizon) to issue a message regarding security risks.
GOLD COMMAND		
Gold (DCFP Mike Duheime)	Keith Finn	For awareness at National Div and the ROCC, an item discussed at meeting with the DCFP re: building momentum; resource asks will be going from POU, Wayne and Phil Lue at CIC up to Kelly Bradshaw on Integrated Command, then right over to Mike to parlay down to the national folks for mobilization. GSB will be copied for visibility, but in the interests of time, those are the lines in place. The ROCC will assist as and when and where necessary, but for getting resources in wherever help is needed, those are the primary lines of tasking.

Solicitor-Client Priv.
